MILGARD

Framing home in a new light

The path to perfect windows and doors has never been more clear. From tranquil mornings to family dinners, MILGARD seamlessly connects you to what matters most: windows and patio doors that frame life's most meaningful moments.

As a trusted brand for more than half a century, MILGARD offers products that promise long-lasting comfort, protection, and exceptional quality day after day, year after year.

WHY WE'RE THE RIGHT CHOICE.

MILGARD offers beautiful, worry-free windows and patio doors to frame each of life's little moments. Our exacting manufacturing processes and the innovations we develop mean you get reliable windows and doors that perform year after year. With MILGARD, you'll receive a level of service and quality others simply can't match, backed with an industry-leading warranty.

EXPERIENCE IS EVERYTHING

Our experts match you with attractive, reliable windows and patio doors that best fit your home, your needs, and your price point.

CONFIDENCE TO CREATE

We deliver the highest-quality windows and patio doors through our passion for craftsmanship and a relentless pursuit of 100%.

EVERY DETAIL, EVERY DAY

From robust testing and precision manufacturing processes to the innovations we develop for your comfort, every detail matters.

Bring your home to life

The epitome of contemporary window and door design, the C700 will bring style, durability, and performance to your home. Composed of fiberglass, one of the strongest and most energy efficient materials on the market today, making the C700 a great option for any climate. Combine those qualities with a variety of aesthetic options – frame colors, obscure glass, grids, etc. – and you have an ideal product for your next renovation or new construction project.

STYLISH DESIGN

Modern aesthetic

Clean, simple lines provide a contemporary look that also maximizes views to the outside, and the unobtrusive design complements any architectural style.

EFFICIENCY

Energy performance

Fiberglass is an exceptionally energy-efficient material, which is why fiberglass windows and doors are becoming increasingly popular in regions that experience extreme temperatures.

Timeless and traditional

The C700 blends timeless style with a modern edge. Choose from a range of curated frame and hardware finishes designed to complement any home. Add grids, obscure glass, and other options to complete the look.

SMARTTOUCH® INNOVATION

We have a long-standing tradition of innovation. The SmartTouch window lock, exclusive to MILGARD, addresses the need for durable windows and patio doors that exceed rigorous California forced-entry codes.*

- **Intuitive.** It's the easiest way to unlock and lock windows, allowing you to open or close them in one smooth motion with no pinching or twisting.
- **Streamlined.** The lock is incorporated into the window sash for a sleek, low-profile design.
- **Strong.** Constructed from die-cast zinc, making it strong and built to last.
- **Secure.** When the handle is down, the window is locked, so you can rest assured your window is secure at a glance.

INSTALLATION CONFIGURATIONS

Buying windows doesn't have to be complicated. MILGARD makes it simple, from the planning stages through project completion. We'll help you understand which frame type suits your project and home style.

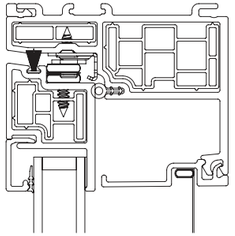

Nail Fin

The nail fin is attached directly to the house's frame in new construction and replacement projects where studs are exposed.

Z-Bar

This replacement window configuration comes with a flange on the exterior of the window to cover and seal the frame on homes with stucco.

Block

Commonly used for replacement projects, this window inserts into your existing frame, leaving interior and exterior trim undisturbed.

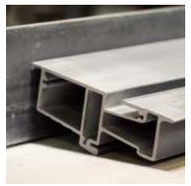

EXCEPTIONALLY STRONG

The strength of fiberglass protects your investment from the elements in all seasons. Because of its inherent properties, fiberglass won't swell like wood and it expands and contracts at the same minimal rate as the glass, resulting in improved performance and energy efficiency.

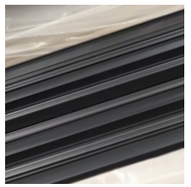

Fiberglass won't peel, warp, split, pit, or corrode, and is virtually impervious to water. MILGARD regularly tests its fiberglass lineals for color uniformity, gloss, film thickness, and chemical resistance for quality and long-lasting performance you can count on.

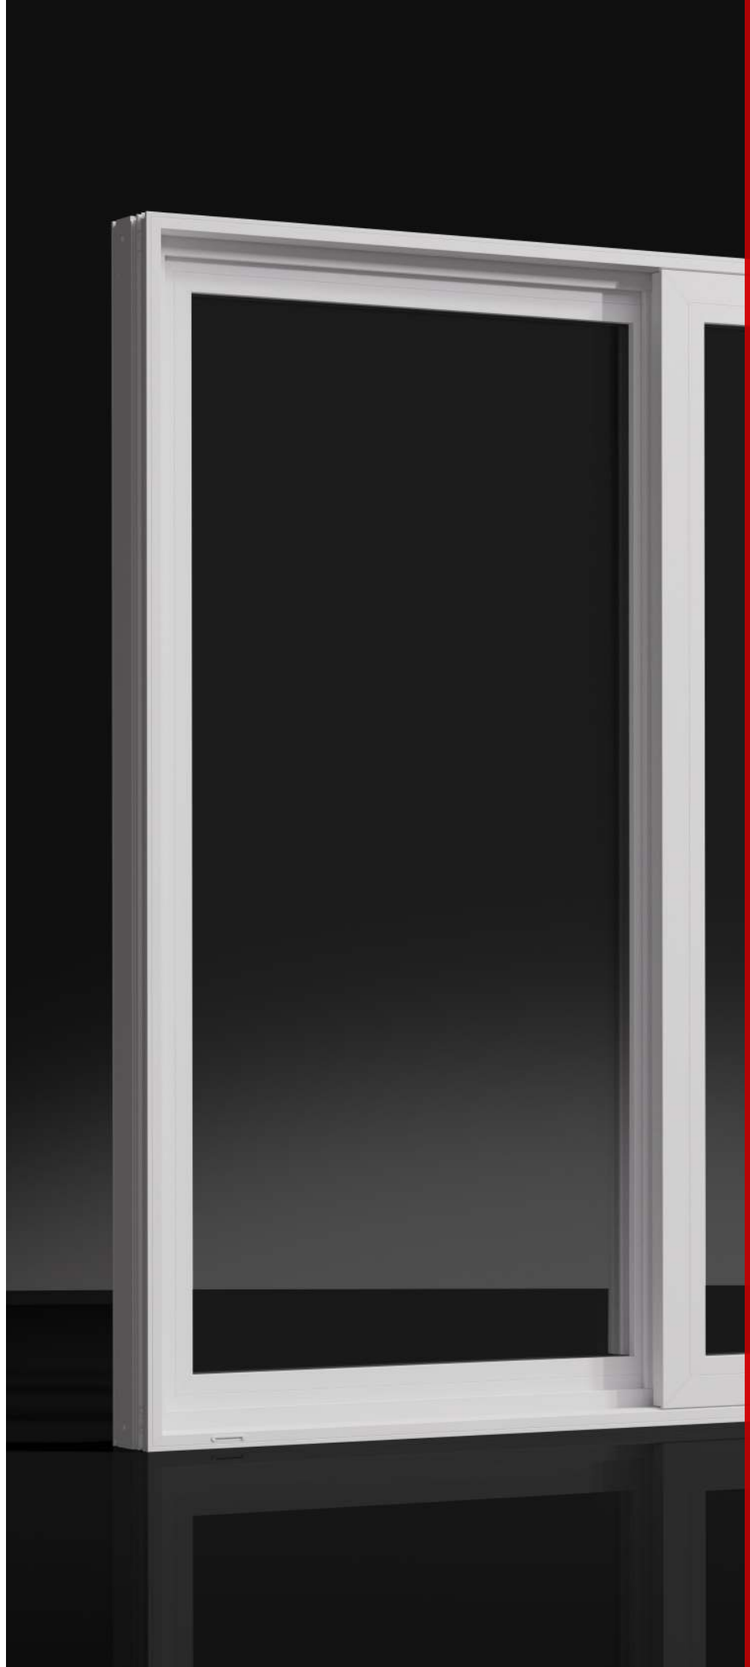

OUR APPROACH

Our windows insulate as well as elevate, tirelessly working to seal out the elements and create homes that are protected, comfortable, and quiet. The path to perfect windows and doors has never been more clear.

Window features

1 FIBERGLASS FRAME

Exceptionally durable, the frame expands and contracts at approximately the same rate as the insulated glass it holds, putting less stress on the seals for improved performance and clear views.

2 SMARTTOUCH INNOVATION

It's the easiest way to unlock and lock windows, allowing you to open or close them in one smooth motion.

3 WOCDS

Window Operating Control Devices (WOCDs) prevent the windows from being opened more than four inches, allowing for fresh air while keeping children and pets safe.

4 ENERGY EFFICIENT

Tested and built for your climate, our windows and doors can meet ENERGY STAR® v7 requirements in all zones.

5 LIFETIME LIMITED WARRANTY

Our products are backed by an industry-leading Lifetime Limited warranty. Rest assured that if you have an issue with your windows or doors, we've got your back.

Create seamless transitions

Experience the ultimate in indoor/outdoor living with the C700 patio door. The sliding version is available in two-, three-, and four-panel configurations. The largest version of the C700 is sixteen feet wide by eight feet high, allowing you to effortlessly merge the interior with the exterior. Plus, the C700 sliding glass door boasts the durability and energy efficiency you'd expect from a fiberglass door.

GLASS

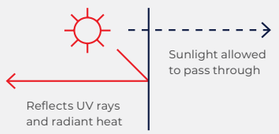

Select clear glass or choose from an assortment of obscure options for privacy in a bathroom or bedroom. We also have tinted glass for additional shading from direct sunlight.

ENERGY EFFICIENCY

Our products can meet ENERGY STAR® standards in the climate zones we serve. Our warm-edge spacers help to lower conductivity, improve argon gas retention, and increase condensation resistance. Low-E coatings help reflect the sunlight away from your home, maintaining interior temperatures.

What is Low-E?
Low-E glass blocks the bad stuff and lets in only the light you want.

ENERGY STAR PARTNER

GRID OPTIONS

Enhance your home's aesthetics with a variety of grid styles and configurations. Select grids placed inside our insulated glass units for easy cleaning, or simulated divided lites (SDL) and check rails for a more historic appeal.

SCREENS

FlexScreen comes standard on C700 Fiberglass Series windows. It's nearly invisible, simple to install, and made to last.

Glass options may vary by location; please consult your MILGARD dealer for glass options available in your area or visit milgard.com.

OUR COMMITMENT TO YOU

We have a dedication to quality and build our windows and patio doors to last. With the C700 Fiberglass Series, you're covered with our Lifetime Limited Warranty. Full Lifetime Warranty is also available as an optional upgrade for a fee and must be selected at the time of purchase.

See complete details at
milgard.com/warranty

OUR GOAL IS 100% TROUBLE-FREE

With a goal of 100% trouble-free, our teams work tirelessly to help ensure your project stays on track.

From regular inspections and quality audits throughout the manufacturing process, we strive to ensure that the final product you receive meets our high standards.

In addition, most MILGARD windows and patio doors carry the American Architectural Manufacturers Association (AAMA) Gold Label to show they have met their strict requirements, which are tested and certified by a third party. This rigorous testing includes water penetration, air leakage, structural integrity, and forced entry resistance.
